Advanced Email Threat Protection

From the #1 provider in email security
All-in-One Email Threat Protection | Email Continuity (Optional Add-On)

**Benefits:**
- Allows good email through, keeps bad email out
- Automatically guards against phishing, spam, threats, and email compromise
- Strong defense against emerging threats
- Keep employees efficient by reducing unwanted emails
- Save time with preset filters
- Increase adoption with an intuitive interface
- Easily customizable, straightforward integration
- Simple to manage and support from one Secure Cloud interface

**Customer Ecosystem:**
- 90,000+ customers from large enterprise to small business
- Companies with Microsoft 365, on-prem Exchange, and G-Suite
- All federal financial institutions
- Examination Council (FFIEC) regulators
- The U.S. Securities and Exchange Commission (SEC)
- 30% of U.S. banks
- 1,200+ U.S. hospitals
- 30+ Blue Cross Blue Shield (BCBS) plans

**Features**
Advanced Email Threat Protection is easy to use.

**Automatic defense**
The 99.9% catch rate and ultra low false-positive rate means there's less need to manage a quarantine

**Easy to use portal**
Simple and intuitive when needed.

**Mobile Access**
Dashboards for intuitive management
At-a-glance updates on threats and highly-targeted users.

**Message Retraction** for Microsoft 365.

**Optional add-ons**
- Email Continuity that spools incoming emails and provides a web portal with full functionality, IMAP/POP

**Benefits: Customer Ecosystem:**
No organization today can afford to be without email threat protection

Like the Florida town that paid a $600,000 ransom, nobody sees it coming. That's why you protect.

Email Threat Protection provides multi-layered filtering that permits legitimate email while blocking malicious threats such as phishing, impersonation, malware, ransomware, and spam-type messages—all automatically.

"A great tool to increase your email threat posture and helps ease your mind about clicky end users!"
- Dale Johnson, Horry Electric Cooperative, Inc.
**How It Works**

The multi-layer filtering engine delivers an extraordinary level of accuracy that reduces both false negatives (bad emails getting in) and false positives (good emails kept out). This reduces the time you spend managing the system and reduces friction for users.

**With Advanced Email Threat Protection You Get**

**Attachment Quarantine** performs forensic analysis on attachments in a secure, cloud-based sandbox environment. It can also deliver a disarmed version of files by removing macros or converting files to PDF.

**Link Protection** rewrites all links to safe versions and performs time-of-click analysis on the destination address. Based on testing, users are either automatically redirected to a safe site, provided a warning for suspicious sites, or blocked from potentially malicious sites.

**Message Retraction** (for Microsoft 365) enhances your incident response with the ability to retract malicious emails already delivered to users’ inboxes. This minimizes risk by taking malicious email out of users’ hands and quickens remediation. The system keeps a detailed audit trail.

**24/7/365 Live Threat Analyst Team** is constantly identifying new threats, updating the system, and providing warnings.

---

**Complimentary Office 365 Security Audit**

Upon launch, we offer a complimentary Office 365 Security Audit that automatically checks for hidden vulnerabilities and malicious settings, and helps remediate them.

---

**Mailflow**

- **Legitimate senders**
  - Multi-Layer Filtering: Defends against phishing, malware, BEC, ransomware
  - 24/7/365 Threat Analyst Team
  - Cyber-Intelligence: Automated traffic analysis, machine learning, pre-built filters.

- **Malicious actors**
  - Bad email filtered out and sent to quarantine

- **Delivered to email service**
  - Office 365
  - Exchange
  - Gmail

- **End user accesses via client**
Why Email Threat Protection?

Ninety-six percent of threats begin with email, reports Verizon. Email Threat Protection secures this major vulnerability in a way that’s straightforward to implement and manage. Plus, as an integral part of Secure Cloud, Email Threat Protection works seamlessly with our other Security, Compliance, and Productivity services. Together, they form a fully integrated platform that allows partners and customers to create a secure, modern workplace.

- Superior efficacy against email-borne threats
- Advanced protection against even zero-hour attacks
- Integrates seamlessly
- Intuitive and user-friendly
