This Syncro integration delivers:

> **Fast, simple sign-up**
> Nearly instant verification process so you can start using Webroot protection right away

> **Powerful policies**
> Straightforward cybersecurity policy application within the Syncro dashboard

> **Streamlined management**
> Single-pane-of-glass dashboard that shows all protected devices

> **Granular visibility**
> Control over all endpoints under management for world-class client satisfaction

> **Powerful remote administration**
> Remote remediation and cleanup commands

> **Billing flexibility**
> Activate Webroot, pay as you go, no commitment

This integration of Webroot® Business Endpoint Protection with Syncro’s PSA, RMM, Documentation and Remote Session solution gives MSPs a fully integrated way to secure and manage their clients’ environments and devices.
Benefits of Using Webroot with Syncro

» **Cloud-based architecture**
   Fully remote access and management without on-premises hardware

» **Syncro integration**
   Unifies and further improves ease of Webroot administration

» **Webroot migration wizard**
   Easily migrate existing Webroot accounts into Syncro

» **Highly effective protection**
   Minimize support and help desk calls, increase customer satisfaction

» **Automated roll-back remediation**
   Renders reimaging virtually unnecessary

» **Zero definition updates**
   Always up to date to ensure protection and compliance

» **Low device footprint**
   Minimizes system overheads for better performance

» **Intuitive, automated management**
   Reduces administration

» **Installs in under five seconds†**
   Deploys with ease

» **No-conflict agent**
   Enables secure solution migration or layered protection

» **Powerful remote agent commands**
   Offers extensive control over individuals or groups of endpoints

» **Granular global and site policies**
   Simplifies hierarchical protection and enforcement at every administration level
