

# Why Webroot is #1 with IT Pros

When it comes to antivirus software, IT pros have lots of choices—both free and paid. But they consistently rank Webroot at the top and give Webroot products the highest ratings.<sup>1</sup> Why is Webroot #1 with IT pros?

“Best protection for end users and client computers I have worked with in the past 21 years of IT. Hands down the best!”

— DLOPEZ MISM, IT pro

Webroot has topped the Spiceworks Best Antivirus SpiceList **three years running**.<sup>2</sup>

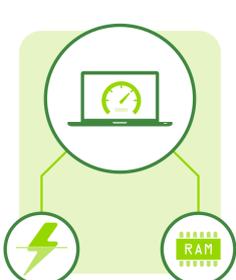

## Next-gen endpoint protection

IT pros value Webroot SecureAnywhere antivirus technology because of its:

**Effectiveness in preventing viruses, malware, and breaches** through cloud-hosted intelligence, heuristic blockers, continuous infection monitoring, journaling, and auto-remediation

**Minimal impact on system performance and user productivity**, thanks to a lightweight agent, two-minute scanning, and low memory demands

**Ease of management** through a powerful web-based console

“This is a great AV product that doesn't use all of your computer resources. Fast and reliable! Easy-to-use web interface for managing multiple endpoints.”

— Craig6155, IT pro

## Security resources you can count on

Webroot equips IT pros with comprehensive product support and security resources:

**Free product support** through online trouble ticketing, phone support in three global time zones, an online Webroot community, user guides and videos, and social networks including Spiceworks

**Optional add-on security awareness training** that teaches employees to spot and avoid cyberattacks and provides a phishing simulator to test user preparedness

**Cybersecurity trend reporting**, including quarterly threat trend reports, cyberthreat webinars, and major research publications such as the [2017 Webroot Threat Report](#)

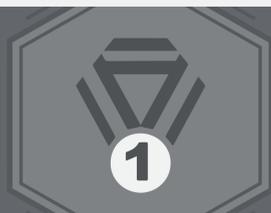

“When we need support, they are top notch. Can't tell you how great that is from a vendor.”

— Twistedfish, IT pro

Nearly 10 million malicious and suspicious mobile apps were made available during 2016, a 5x increase over 2015.

## A major presence in Spiceworks

Webroot has embraced the IT pros in the Spiceworks Community in a major way by:

Maintaining a vendor page that provides **product support and security resources** to over 173,000 followers

Providing **four green guys and gals** that represent product engineering, customer service, and more

Offering **free trials** of numerous products and services

Playing an **active role at SpiceWorld**, serving as a conference sponsor, session presenter, and supplier of serious swag

“Great product and customer support! Shout out to Catherine (Green Gal) here on Spiceworks.”

— James404d, IT pro

Webroot has won two Spicies Awards, Spiceworks' highest honors—the Maestro Award in 2015 and the Advisor Award in 2014.

## Webroot celebrates 5 years of collaboration

Webroot has been active in the Spiceworks Community since 2012, building a loyal customer base one IT pro at a time. Want to learn more?
